94-72-52: Diagnostic and Prognostic Markers in High-Grade Glioma

Update 2 – May 29, 2009

Summary of Change

Administrative changes

Replacement pages are included. Please incorporate into the protocol and keep this addendum with your protocol.

Title page Updated to reflect Update 2 and revised NCI version date.

Protocol Resources

Page 2: **Jack Beranek** replaces Janis Wobschall as the administrative/document resource.

Roxann Neumann has been added for Non-paraffin biospecimens.

Section 4.0 **Registration Procedures**

Page 18: **Registration Office** replaces ~~Randomization Center~~ throughout this section.

Section 4.1 removes the reference to call to register a patient: To register a patient, call (507/284-4130) or fax (507/284-0885)...

Section 6.0 **Procedures for Procurement and Handling of Blood Samples...**

Page 20: Section 6.12 now reflects the correct information for the FAX Supply Request Form: Kits will be supplied through Mayo Medical Laboratory (MML). Participating institutions may obtain kits by submitting the ~~attached~~ MML FAX Supply Request Form (**see Forms Packet**) to MML (**see FAX number on the Supply Request Form 507/284-9314**). All sections of the form must be completed in order to expedite processing of the request.
