Re: N0321, Phase I/II Study of PS-341 in Combination with Paclitaxel, Carboplatin, and Concurrent Thoracic Radiation Therapy for Non-small Cell Lung Cancer (NSCLC)

Just as a reminder, study N0321 is still open to patient accrual in the Phase I portion of the study. We are very close to opening to the Phase II portion and are hoping we can finish accrual quickly to the Phase I portion. Please enroll patients that you find eligible.

If you have any questions, please feel free to contact me at 507/284-4852.
