**Re:** N07C2, The Use of Wisconsin Ginseng (panax quinquefolius) to Improve Cancer-Related Fatigue: A Randomized, Double-Blind, Placebo-Controlled Phase III Study

Hello,

Some sites have been asking how patients can buy the ginseng we used in our studies. If so, you can have them contact the Ginseng Board of Wisconsin via E-mail at [info@ginsengherbco-op.com](mailto:info@ginsengherbco-op.com) or phone at 715-443-3355. The web site is [www.ginsengboard.com](http://www.ginsengboard.com). Pricing will be available to them upon request.

When ordering, they can indicate that they want the ginseng used in the Mayo Clinic studies.

Please note that your patient should be completed with the study before ordering, and also remind your patient that we won't know whether ginseng definitively helps cancer related fatigue until the study is done and we have completed the analysis.
