

North Central Cancer Treatment Group

N07C2, The Use of Wisconsin Ginseng (*panax quinquefolius*) to Improve Cancer-Related Fatigue: A Randomized, Double-Blind, Placebo-Controlled Phase III Study

Status Change Notice – May 27, 2011

NOTICE OF STATUS CHANGE

This study is permanently closed to patient accrual for the general patient population, but will remain open to minority accrual only, effective Friday, May 27, 2011.

Patient entry for the general population will not be allowed after Thursday, May 26, 2011 at 4:30 p.m. CST.

Minority patient entry only will continue, per study design.

The accrual objective for the general population for this study has been met. Patients currently on study should be followed according to the protocol.

Please retain this notice with the protocol.
